Final exam

Specifications

- Recreate the web page
  For a preview of what is wanted, see file : final_exam_reference.jpg

- The banner should be full width.

- Content must be limited to 1055px wide centered horizontally.

- All text must be text (not images.)

- All links should have a rollover effect
  (changing to the top bar color when hovered)

- There must be a breaking point for mobile device :

    - Menu items should be placed one under the other (centered).

    - Buttons « Homme » and « Femme » should not wrap and simply shrink (remaining side by side)

    - When wrapping, products images (including tuques) should be displayed two by row

Yor work will be evaluated on :

- General aspect

- Good integration of the visual elements

- Good integration of textual elements

- Functionalities :
    - Banner stretching
    - Rollovers
    - Position of elements when wrapping

- Quality and presentation of the code (HTML and CSS)
